**Chevron26.com Newsletter 07/2006**

Hi Gater,

here are the news and updates for Chevron 26 since the last newsletter.

-----

**New Topsites List!**

as you may have noticed Chevron 26's old Topsites list was severely destroyed due to a hacker attack.

Well the script for old topsites list was not safe any more.  
The Hacker deleted half of the listed sites in the database, but I had a backup.

Instead of restoring the backup I decided to install a new topsites script with more features.  
It is now easier for me to maintain the topsites list and you have an important advantage, too...

You can now choose the voting button. You can select one among 20 new voting codes.  
And now your rank is shown on your vote button.

I think that is a nice new feature.

I renamed it so it is now "The List of International Stargate Topsites" instead of "C26 Toplist".

-----

The Fanlisting "Into the fire" moved to a new home.

## Newsletter 06/2006

Hi Gater,

the most important new thing we have on Chevron26.com is the new database for all the downloads.

The downloads are now new categorized. The database is multilanguage (english/german).

Some of the features:

- You can see the file size and the file extension.
- You can rate and comment on every individual download.
- Downloads are now sortable and searchable.
- Now each new download is marked as "new" next to it.
- Also every updated download is marked as "updated".
- You can view a List of Top Downloads.
- External links are marked with a gate icon next to them.
- There are some other features for registered users.

The other good news is that the forum [www.gaters.info](http://www.gaters.info) is running quite. We have interesting discussions and count now over 200 members.

**Newsletter 02/2006**

Hi Gater,

the last newsletter is some months ago. But you should not think that in these months nothing has happened on the site. Instead a lot has happened and the

site got more content and some content were changed at a high level. I got over 400 Emails by you (the visitors) and I tried to realize all your suggestions

and improvements for the site. That took some time.

Now I want to announce many new things that are now on Chevron26.com

First point is that we have a new forum version on Gaters.info. The installation, modification etc. took several weeks to months. But I think it is now a

nice forum with a few extras, which are just for fun. For example you can buy your virtual Stargate Equipment with Naquada money in the forum.

More infos about the features are in the FAQ section of the forum.

I transfered the chat also to the new forum. You can only see the chat if you are a registered user. That is necessary to prevent spam and other mischief

that was done with one of the old chats where everybody could enter without registration.

Plus I added two templates to the forum so you are able to choose in your profile the look of the site.

I hope you like the new forum.

URL: <http://www.gaters.info>

There are already 125 members who discuss the Stargate Universe and much more.

And I want to invite you to join me and the other Gaters there :-)

Good news: Chevron 26 won 3 Awards.

-----

## DATABASES

I redesigned the Planet Database for SG-1 and SGA.

Now with Status-Images for each planet and over 94 new Planets in the SG-1 List and 15 new Planets in the SGA-List.

Double planet entries were removed. A whole bunch of planet images added.

New (currently small) section for Stargate SG-1 Uniforms

Added Aurora to the Atlantis Database

Updated some texts in the SG-1 and SGA database (Characters and Technology)

Update cultures: Prior, Ori, Doci

-----

## MYTOLOGY

Added an Ancient-English dictionar

-----

## FANART

8 new Fanart images by Giovanna and Luinalda

11 new fun pictures ((made by Starfiction, Lika, Amanda C, Jade)

-----

## EXTRA

1 new SG-1 Quiz level

4 new SGA Quiz Levels

Over 30 New Quotes (SG-1, SGA, Actors)

-----

## GALLERY

243 new pictures in the gallery (Sheppard, McKay, Beckett, Dex, Mitchell, Vala, Promo pics, Stargate Worlds)

---

## WALLPAPERS

I got over 69 new wallpapers (Mirko Stödter, Bulletproof, Franky, TabathaC, Lovetruthbella, Killian) for my site. But I thought it would be better to improve

the usage for the wallpaper pages first before adding them.

So we have now a new Database for Wallpapers. With a better navigation and categories. And you can now rate wallpapers, sort wallpapers, search via tags

(like flickr or youtube) and much more!

Now also with a wallpapers toplist.

Lucky for me the script also counts the wallpapers and I was a bit surprised as I noticed that we have now with the 69 new wallpapers over 400 wallpapers at

all!!!!

---

## DOWNLOADS

18 new LJ Icons (thanks to Lovetruthbella) -- Every Stargate Icon Designer is invited to join the icon database, too and present his/her work on Chevron26.

New Section: 3D Fan Video Clips with 3 new Video Clips made by Jay and Mirko Stödter (I suggest the Demoreel Vid Clip, it is fantastique!)

12 new Fantrailer/Fanteaser (Jaso, Jay, Naria, Aiden Ford)

10 new SGA Video Clips

4 new SGA sounds: Atlantis City and Off-World Alarm (thanks to Steve Russett)

10 new Stargate Covers by Jonathan Lequire (if you don't like the official silver covers)

29 new Music Vids (Mirko Stödter, Andy, Zhuge\_Flea, Finn, Ellis, Jaso, Jay, Chic Freak, Tanith, and many more!)

I transfered the Music Vids in a new database. Now we can see how many times a vid has been downloaded and every Gater has the right to rate each vid.

EXTRA

I installed a new chat system because some people abused it. Several Gaters claimed that these people have to be banned and this is now possible. All gaters

who want to chat have now to register. I am sorry, but this is the only way to prevent misbehaviour of special individuals.

I am also looking for Chat Moderators. If you think you would be a good moderator, feel free to apply for this job.

Suggestions, broken links, feedback, ideas? Just send me a mail.

If you think that you can write additional or better texts/database entries or you want to publish your work (music vid, Fanart, Wallpaper, Icon,

**Newsletter 10/2005**

Hi,

first I want to say welcome to all new gaters who signed up for this newsletter. And second to all old gaters: welcome back to Chevron26's newsletter!

The last official update announcement was some weeks ago.

That does not mean that I have abandoned updates on Chevron26 but I did not announce every little update since the last newsletter.

I added some new parts on Chevron26, for example a SGA Quiz, PSP Wallpapers, a new SG-1 Characters Database or a new IconArchive for Avatars, Icons and

Signatures.

There were also some minor updates like a new Favicon or a new download system.

As you know webspace, traffic, maintenance of the site and development costs money.

That is the reason why I have added now some advertisement on the site.

You will see it only when you download a file or take a look at the sitemap. Mainly Google Adsense and Amazon.com (Stargate DVDs) advertisement. There are no

popups or other annoying advertisements.

I also added a Donation Button (Paypal).

**Your help is needed!**

Hi you all!

I need help with the downloads on Chevron 26.

As you may have already noticed I installed a new download system.

I had to change all links so it can be that some downloads do not work.

I don't have the time to check every single link ,

so if you find a broken download, post it in our forum or write me a mail.

I will then repair the broken link and you can get a working download.

REMEMBER only to download one after one file and not more as one files at the same time. Cause this could result in an error.

Due to bandwidth-theft my webhost has shut down a part of chevron26. Most of the downloads are not working and the forum isn't working, too.

And that's all because of bandwidth theft.

Shame on you thieffes!

Remove all direct links to download files on my server immediately!

Otherwise Chevron26 will be shut down complete in the near future!

I am really pissed off by the behaviour of these thefts who steals my bandwidth.

**Chevron 26 was hacked.**

"NoNick Owned You. (NoNick; C0d3\_BI4ck\_NiNJA; Hualdo; \_st3alth s0ld13r\_; Kaioweb)"

Today I saw that some files are changed on the server. Some people thought it was funny to destroy some index-files and add their own files to greet their friends.

For me that is not very funny. I spent my money (and in germany internet is not very cheap), i am a student and i have not much money, so if this will happen a second time I will make Chevron 26 be offline and close this project.

I don't know if I will make a report by the police but I am thinking about this opportunity. I know the german police very well and I have no bad feelings to make a report. So I am thinking about this opportunity....

If this happens again, Chevron 26 is going to be offline!

12/22/2003

**Server Error**

Yesterday the server who hosts Chevron 26 broke down. Some not exactly known data got lost.

I tried to upload all files who got lost but there still can be a broken link or a not uploaded update. So if you find an error please write me a mail!

**New domain, design and guestbook**

C26 has a new webspace and a new domain (<http://www.chevron26.com>).

I decided to close my membership in stargate webring which are hosted by webring.com because of the often not valid quellcodes.

Chevron 26 has won two new awards and got some new affiliates.

If you are a fan of "Into the Fire", you can join the fanlisting

This fanlisting is member of [thefanlistings.org](http://thefanlistings.org).

As you can see C26 has a new Design (I think the navigation is now easier and better).

**Staff**

I am looking for engaged people who want to help me with the site (technic, characters, episodes, mythology, articles, news,...).

Write me a mail if you are interested.

Fanfictions and Fanwork are welcome.

Special thanks to docmagoo, who works at the news section.

If you find any mistakes or broken links feel free to write me a mail.

Thanks to all, who showed me mistakes in the past (the last was Pau Corbella (thanks again!)).

It would be nice if you send me your comment about the page or write in my guestbook (link at the bottom of this news).

Best Regards,

Isto
